

*Together committed to supporting schools with affordable research-based professional development to improve teaching and learning*

My presentations are designed for all educators, including administrators, teachers, pre-service teachers, and support staff K-12th grade. I have always believed that effective teachers are the fundamental key in student achievement, and my professional development is aimed at helping schools and leaders transform classrooms using practical effective strategies that get results. After working "in the trenches" as a teacher, coach, and administrator, I've spent the past 13 years providing keynotes, workshops, and on-site consulting across North America. I look forward to working with you to meet your staff development needs!

# MARK MCLEOD

Known for his dynamic and motivating presentations, Mark McLeod is a rare speaker who can speak to the heart of an educator. He knows what it is like to “be in the trenches.” Recognized as one of Mississippi’s top school administrators, Mark has shared his expertise at state and national conferences and conducted many workshops and keynotes for schools and districts throughout North America.

*I loved the energy of the speaker. He motivated me to become a better teacher. I can't wait to teach tomorrow!*

As a lifelong educator, his educational experience includes teacher, coach, assistant principal, and principal. He was twice selected as Teacher of the Year for Lumberton Public School District. In 2002, he was selected as Covington County School District’s Administrator of the Year and Mississippi’s Region Four Administrator of the Year. For over 13 years, Mark has dedicated himself to improving education as a full-time motivational speaker, professional development instructor, and educational consultant.

*I have definitely had my fire relit! This professional development is one that should be taught to all teachers and in colleges. I'll definitely take all of this back with me to use in my classroom. I hadn't realized how much of the survival stage I was in! Thank you so much!*

His enthusiastic and interactive presentations leave participants inspired to make deposits in the lives of their students. He currently resides in Purvis, Mississippi with his wife, Kelli, and daughter, Erin.
